

The Green Wave Environmental Sustainability Seminar Series

OPEN TO THE PUBLIC

Duke University Marine Lab, Fall 2008
Thursdays, 5:30- 6:30 pm, OCC Lecture Hall

Join us to learn about practical solutions to our everyday environmental challenges. Eastern North Carolina is a beautiful natural setting with rich ecological diversity - It's up to us to keep it that way. Be a part of the sustainability movement by learning about major environmental concerns facing our local and global communities and the simple ways we can conserve and protect our natural environment for generations to come.
