

## PRE-HEALTH VOLUNTEER OPPORTUNITIES AT THE DUKE MARINE LAB

GET GREAT CLINICAL EXPERIENCE WHILE YOU STUDY AT THE BEACH!

### PHYSICIAN SHADOWING

Various locations in Beaufort and Morehead City

Shadowing opportunities have been identified with area physicians in a variety of specialties including pediatrics, urgent care, and orthopedic surgery.

### CARTERET GENERAL HOSPITAL WALK-IN EMERGENCY ROOM

Carteret General Hospital, 3500 Arendell St., Morehead City, NC 28557

Students will volunteer at the reception desk in the walk-in emergency department. This involves patient intake and processing, help with paperwork, managing the waiting room, checking patients through triage, and escorting them into the ER. There is also the possibility of some ER admitted volunteer work based on time/performance. The hours are flexible; the ER is open 24 hours a day, 7 days a week. This opportunity will give students experience with a broad cross-section of life in an ER.

### BROAD STREET CLINIC

The Broad Street Clinic, 500 North 35th St., Morehead City, NC 28557

The Broad Street Clinic is an entirely volunteer clinic providing medical care for patients with no insurance (or who are under-insured) and who are no more than 200% above the poverty level. Volunteer doctors and nurses see patients Tuesday evenings and the pharmacy is available on Thursdays. Administrators and patient advocates staff the clinic during normal business hours. Current volunteers and interns include high school and college students in addition to community members. Opportunities for Duke Marine Lab student volunteers include shadowing nurses, working with patient advocates, and helping with pharmacy and clinic administration. This is an opportunity for students to see how a non-profit organization runs and learn about the health care and non-profit aspects of the operation.

ADDITIONAL OPPORTUNITIES ARE CONTINUALLY BEING EVALUATED ~  
PLEASE ASK IF YOU HAVE A SPECIFIC INTEREST!
